- 7.2V, 21.6 Wh (3000 mAh)

InfoLITHIUM L SERIES STAMINA

Smarter BATTERIES. Longer shooting.

When the action rolls, you need the power to capture it. Smarter batteries help you prepare. Sony InfoLithium® Batteries communicate with your Handycam camcorder's AccuPower™ meter, telling you how much shooting time remains. And because they resist "memory effect," Sony InfoLithium Batteries do not prematurely reduce recording time. It's a smart way to be ready for action.

InfoLithium M Series Batteries
NP-FM50 $60

- 1.7X more powerful than the standard battery (NP-FM30)
- 7.2V, 8.5 Wh (1180 mAh)

InfoLITHIUM M SERIES STAMINA

Refer to page 28-29 to see which accessories are available for your Sony Handycam camcorder.

Power usage varies: Video lights and the camcorder LCD screen consume extra power. Pack a charged, spare battery to keep the video rolling when using accessories.

InfoLithium M Series Batteries
NP-FM70 $100

- 3.3X more powerful than the standard battery (NP-FM30)
- 7.2V, 17 Wh (2360 mAh)

InfoLITHIUM M SERIES STAMINA

InfoLithium L Series Batteries
NP-F550 $60

- 2.1X more powerful than the standard battery (NP-F330)
- 7.2V, 10.8 Wh (1500 mAh)

InfoLITHIUM L SERIES STAMINA

InfoLithium M Series Batteries
NP-FM91 $150

- 5.9X more powerful than the standard battery (NP-FM30)
- 7.2V, 29.8 Wh (4140 mAh)

InfoLITHIUM M SERIES STAMINA

To see how much power is remaining, Sony recommends using a Sony InfoLithium battery.

InfoLITHIUM L SERIES AccuPower™ battery meter displays in the viewfinder, or on the LCD monitor, remaining battery time in minutes.

Charged up for ACTION.

It's easy to put the power back into your Handycam camcorder. And because Sony battery chargers are small, lightweight, and portable, you can do it just about anywhere. And then Sony's Quick Charge System (AC-VQ850D) communicates with Sony InfoLithium Batteries, showing you the time remaining in minutes until the full charge is complete.

Thanks to Sony InfoLithium technology, the charger LCD shows the time remaining until full charge.

The charger LCD can also show the remaining battery life in minutes.

Sony recommends charging your Sony camcorder batteries with a Sony battery charger.

Refer to page 28-29 to see which accessories are available for your Sony Handycam camcorder.

Without Wide Angle Lens

With Wide Angle Lens

Get in their FACE.

For every memory you're trying to capture, Sony has the right lens. Get a super-wide-angle view for big family gatherings or get up close and personal for blowing out the candles on the birthday cake. You'll always get what you're shooting for.

Wide Angle Lens
VCL-0637H $50

- 0.6X wide-angle converter for Sony 37 mm diameter lenses
- Broadens the point of view so you get a wider field of vision

Telephoto Lens
VCL-R2037 $80

- 2.0X telephoto converter for Sony 37 mm diameter lenses
- Helps make distant subjects appear closer

High Grade Telephoto Lens
VCL-HG2037X $190

- Ultra-high quality lens recommended for digital camcorders and megapixel still cameras
- 2.0X telephoto converter for Sony 37 mm diameter lenses
- Helps make distant subjects appear closer

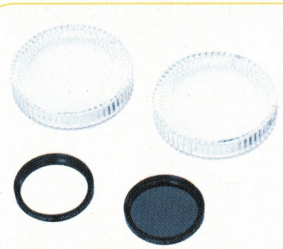
High Grade Wide Angle Lens
VCL-HG0737X $190

- Ultra-high quality lens recommended for digital camcorders and megapixel still cameras
- 0.7X wide-angle converter for Sony 37 mm diameter lenses
- Broadens the point of view so you get a wider field of vision through the entire zoom range

Refer to page 28-29 to see which accessories are available for your Sony Handycam camcorder.

SMOOTH out the edges.

Too much sunlight can wash out contrast and detail. Or bright reflections can make it impossible to see through glass windows and doors. Sony filters help you get just the right balance for a perfect image.



Neutral Density Filter Kit
VF-R37K $30

- Neutral Density Filter improves contrast and detail in super-bright sunlight (such as at the beach)
- Filter protects lens from dust and streaks
- Hard carrying case for protection
- Fits Sony 37 mm diameter lenses

Wide Angle Lens
VCL-ES06A $60

- 0.6X wide-angle converter for both 37 mm and 52 mm diameter lenses
- Broadens the point of view so you get a wider field of vision (wide angle setting only)

Using the zoom while recording can make for uncomfortable viewing. Try to use the zoom to "frame" a shot when the tape isn't running. If you must zoom while shooting, do it slowly.

Telephoto Lens
VCL-ES20A $90

- 2.0X telephoto converter for Sony 37 mm and 52 mm diameter lenses
- Helps make distance subjects appear closer

Polarizing Filter Kit
VF-37PK S $70

- Polarizing Filter suppresses unwanted reflections off glass and water
- Filter protects lens from dust and streaks
- Hard carrying case for protection
- Fits Sony 37 mm diameter lenses

High Grade Wide Angle Lens
VCL-MHG07 $145

- Ultra-high quality lens recommended for digital camcorders and megapixel still cameras
- 0.7X wide-angle converter for Sony 52 mm lenses, supplied converter for 37 mm lenses
- Broadens the point of view so you get a wider field of vision (wide angle setting only)

Turning the camera while shooting can make the audience queasy. If you want to turn the camera, stop shooting first, and then compose the new shot and resume filming.
